

(3) When fishing other than in the Gulf of Mexico and when the fishery under the General category has not been closed under § 635.28, a person aboard a vessel that has an HMS or Atlantic Tunas Charter/Headboat permit may fish under either the retention limits applicable to the General category specified in paragraphs (a)(2) and (a)(3) of this section or the retention limits applicable to the Angling category specified in paragraphs (b)(2) and (b)(3) of this section. The size category of the first BFT retained will determine the fishing category applicable to the vessel that day.

(d) *Harpoon category.* Persons aboard a vessel permitted in the Atlantic Tunas Harpoon category may retain, possess, or land multiple giant BFTs per day. An incidental catch of only one large medium BFT per vessel per day may be retained, possessed, or landed.

(e) *Purse Seine category.* Persons aboard a vessel permitted in the Atlantic Tunas Purse Seine category,

(1) May retain, possess, land, or sell large medium BFT in amounts not exceeding 15 percent, by weight, of the giant BFT landed on that trip, provided that the total amount of large medium BFT landed by that vessel during the fishing year does not exceed 10 percent, by weight, of the total amount of giant BFT allocated to that vessel for that fishing year.

(2) May retain, possess or land BFT smaller than the large medium size class that are taken incidentally when fishing for skipjack tuna or yellowfin tuna in an amount not exceeding 1 percent, by weight, of the skipjack tuna and yellowfin tuna landed on that trip. Landings of BFT smaller than the large medium size class may not be sold and are counted against the Purse Seine category BFT quota allocated to that vessel.

(f) *Longline category.* Persons aboard a vessel permitted in the Atlantic Tunas Longline category may retain, possess, land, and sell large medium and giant BFT taken incidentally in fishing for other species. Limits on such retention/possession/landing/sale are as follows:

(1) For landings south of 34°00' N. lat., one large medium or giant BFT per

vessel per trip may be landed, provided that, for the months of January through April, at least 1,500 lb (680 kg) and for the months of May through December, at least 3,500 lb (1,588 kg), either dw or round weight, of species other than BFT are legally caught, retained, and offloaded from the same trip and are recorded on the dealer weighout slip as sold.

(2) For landings north of 34°00' N. lat., landings per vessel per trip of large medium and giant BFT may not exceed 2 percent by weight, either dw or round weight, of all other fish which are legally caught, retained, and offloaded from the same trip and which are recorded on the dealer weighout slip as sold.

(g) *Trap category.* Persons aboard a vessel permitted in the Atlantic Tunas Trap category may retain, possess, land, and sell each fishing year only one large medium or giant BFT that is taken incidentally while fishing for other species with a pound net or fish weir. No other Atlantic tunas caught in a pound net or fish weir may be retained.

[64 FR 29135, May 28, 1999, as amended at 65 FR 42887, July 12, 2000]

§ 635.24 Commercial retention limits for sharks and swordfish.

The retention limits in this section are subject to the quotas and closure provisions in §§ 635.27 and 635.28.

(a) *Sharks.* (1) Persons who own or operate a vessel that has been issued a directed ILAP or LAP for shark may retain, possess or land no more than 4,000 lb (1,814 kg), dw, of LCS per trip.

(2) Persons who own or operate a vessel that has been issued an incidental catch ILAP or LAP for sharks may retain, possess or land no more than 5 LCS and 16 SCS and pelagic sharks, combined, per trip.

(b) *Swordfish.* (1) Persons aboard a vessel that has been issued an incidental ILAP or LAP for swordfish may retain, possess, or land no more than two swordfish per trip in or from the Atlantic Ocean north of 5° N. lat.

(2) Persons aboard a vessel in the squid trawl fishery that has been issued an incidental ILAP or LAP for swordfish may retain, possess, or land no more than five swordfish per trip in

§ 635.25

or from the Atlantic Ocean north of 5° N. lat. A vessel is considered to be in the squid trawl fishery when it has no commercial fishing gear other than trawls on board and when squid constitute not less than 75 percent by weight of the total fish on board or offloaded from the vessel.

§ 635.25 [Reserved]

§ 635.26 Catch and release.

(a) *BFT*. (1) Notwithstanding the other provisions of this part, a person aboard a vessel issued a permit under this part, other than a person aboard a vessel permitted in the General category on a designated RFD, may fish with rod and reel or handline gear for BFT under a tag and release program, provided the person tags all BFT so caught, regardless of whether previously tagged, with conventional tags issued or approved by NMFS, returns such fish to the sea immediately after tagging with a minimum of injury, and reports the tagging and, if the BFT was previously tagged, the information on the previous tag. If NMFS-issued or NMFS-approved conventional tags are not on board a vessel, all persons aboard that vessel are ineligible to fish under the tag-and-release program.

(2) Persons may obtain NMFS-issued conventional tags, reporting cards, and detailed instructions for their use from the NMFS Cooperative Tagging Center. Persons may use a conventional tag obtained from a source other than NMFS to tag BFT, provided the use of such tags is registered each year with the Cooperative Tagging Center and the NMFS program manager has approved the use of a conventional tag from that source. An angler using an alternative source of tags wishing to tag BFT may contact the NMFS Cooperative Tagging Center at the Southeast Fishery Science Center.

(3) An angler registering for the HMS tagging program is required to provide his or her name, address, phone number and, if applicable, the identity of the alternate source of tags.

(b) *Billfish*. NMFS is encouraging further catch and release of Atlantic billfish by establishing a recreational catch-and-release fishery management

50 CFR Ch. VI (10–1–00 Edition)

program, consistent with the guidance of § 600.350(c).

(c) *Sharks*. Notwithstanding the other provisions of this part, a person may fish for white sharks (*Carcharodon carcharias*) with rod and reel, provided the person releases such fish to the sea immediately with a minimum of injury, and that such fish may not be removed from the water.

[64 FR 29135, May 28, 1999, as amended at 65 FR 42887, July 12, 2000]

§ 635.27 Quotas.

(a) *BFT*. Consistent with ICCAT recommendations, NMFS will subtract any allowance for dead discards from the fishing year's total U.S. quota for BFT that can be caught and allocate the remainder to be retained, possessed, or landed by persons and vessels subject to U.S. jurisdiction. The total landing quota will be divided among the General, Angling, Harpoon, Purse Seine, Longline, and Trap categories. Consistent with these allocations and other applicable restrictions of this part, BFT may be taken by persons aboard vessels issued Atlantic Tunas permits or HMS Charter/Headboat permits. Allocations of the BFT landings quota will be made according to the following percentages: General - 47.1 percent; Angling - 19.7 percent, which includes the school BFT held in reserve as described under paragraph (a)(7)(ii) of this section; Harpoon - 3.9 percent; Purse Seine - 18.6 percent; Longline - 8.1 percent; and Trap - 0.1 percent. The remaining 2.5 percent of the BFT landings quota will be held in reserve for inseason adjustments, to compensate for overharvest in any category other than the Angling category school BFT subquota or for fishery independent research. NMFS may apportion a landings quota allocated to any category to specified fishing periods or to geographic areas. BFT landings quotas are specified in whole weight.

(1) *General category landings quota*. Prior to each fishing year, NMFS will set the General category effort control schedule, including time-period subquotas and restricted-fishing days, through proposed and final specifications published in the FEDERAL REGISTER.
